Dearly beloved daughter in Christ...

I greet you in the name of our Lord Jesus Christ Who made the heaven and earth. I believe you and the fetus growing in your womb are in perfect health by the grace of God. Thanks be to the Lord Who protected your fetus all these months. He will protect you safely henceforth as well. Is it not so, that the counsel I give you each and every month is a blessing to you? Even this month, I am happy to share the Word of God. The scripture says, ***“I can do all things through Christ Who strengthens me”.*** (Philippians 4:13). May be you are physically weak during this pregnancy period. You might have been disturbed by vomiting and giddiness. If Christ dwells in you, certainly you can overcome these weaknesses. You can do anything. He will protect not only you, but also your child and will graciously make you give birth to a blessed offspring. Yes, beloved, never think that you received this blessing by your deeds. This has come by the Lord. The child in your womb is the gift from God. Never forget that only the Lord can give life, health and proper growth to that fetus. Give priority to the Lord and honour him.

My dear daughter, lift up sacrifices of thanksgiving to the Lord, pondering over the blessing you have received that wasn't received by many. Be of the Lord's mind all through these days of pregnancy. What you bear is the Lord's sacred offspring. They are the ones who are going to minister to the Lord's kingdom. They are going to triumph over satan and bring people to the Lord's side. Pray well. Praise God. You and the fetus in your womb will be blessed.
